TRANSACTIONS, AMERICAN GEOPHYSICAL UNION

The Weekly Newspaper of Geophysics

Eos invites contributions of review, short articles, meeting reports, news notes on recent research, and letters to the editor. Material must be readable, contain little or no mathematics, be of broad interest to scientists in the various disciplinary sections of the Union, and be timely.

Eos also welcomes contributions dealing with the interfaces of geophysics with society. This newspaper is an effective way to address those involved in the study of the earth and its environment in space.

Send double-spaced manuscripts (four copies) to *Eos*, AGU, 2000 Florida Avenue, N.W., Washington, D.C. 20009, or send them directly to one of the associate editors with a copy to the above address.

EOS

TRANSACTIONS, AMERICAN GEOPHYSICAL UNION

The Weekly Newspaper of Geophysics

Eos invites contributions of review, short articles, meeting reports, news notes on recent research, and letters to the editor. Material must be readable, contain little or no mathematics, be of broad interest to scientists in the various disciplinary sections of the Union, and be timely.

Eos also welcomes contributions dealing with the interfaces of geophysics with society. This newspaper is an effective way to address those involved in the study of the earth and its environment in space.

Send double-spaced manuscripts (four copies) to *Eos*, AGU, 2000 Florida Avenue, N.W., Washington, D.C. 20009, or send them directly to one of the associate editors with a copy to the above address.
